

Sankofa Lens — Reel Template & Script (+ campaign versions)

Your most shareable pillar: show the app naming real objects in Twi. Branded frames drop into any editor (CapCut, Reels) + a shot-by-shot script.

Files in reel/: 1_cover.png (hook), 2_label_food.png / 3_label_water.png / 4_label_epono.png (transparent overlay “word cards” to lay over your footage), 5_endcard.png (CTA close). Add an object: add label_card("Twi","English","6_label_x") in generate_highlights_reels.py and re-run.

Campaign versions in campaign/: worldcup_cover.png + worldcup_endcard.png (Ghana vs Colombia — “Can you talk noise in Twi?” / “Yɛbɛdi nkonim!”), detty_cover.png + detty_endcard.png (Detty December — “Traveling to Ghana? Learn Twi.” / “Land speaking.”).

Format

9:16, 1080×1920, 12–20s. Hook in the first 1s. Burn captions in. Trending afrobeats/amapiano low under your voice.

Shot-by-shot (≈15s)

Time	Visual	On-screen	Audio
0–1s	1_cover.png or whip-pan into scene	“POINT. LEARN. SPEAK.”	beat drop
1–4s	Point camera at food; app scans	—	VO: “I pointed my camera at my food...” ping + Twi audio
4–6s	2_label_food.png: Aduane • Food	overlay	
6–9s	Point at water → 3_label_water.png: Nsuo	—	Twi audio
9–12s	Point at table/door → 4_label_epono.png: Epono	—	Twi audio
12–15s	5_endcard.png (or campaign endcard)	“Learn Twi free”	VO: “Anything you can see, you can say.”

Hooks to test

1. “POV: you can now name anything in Twi”
2. “Traveling to Ghana? Do THIS before you go.”
3. “The app that teaches you Twi with your camera”
4. “Stop pointing and mumbling in Accra. Do this instead.”

Captions

Evergreen: Anything you can see, you can say. Sankofa Lens names the world around you in Twi. Free on Android link in bio. #LearnTwi #SankofaLens #Twi #Akan #Ghana #Diaspora

World Cup: Don't just watch Ghana — talk like Ghana. Learn match-day Twi before kickoff. #Ghana #BlackStars #WorldCup #Twi #Akan

Detty December: Detty December is calling. Land speaking. Learn travel Twi before you fly. #DettyDecember #Ghana #Accra #Twi #LearnTwi

Tips

Real objects + real hands (jollof, trotro, Malta). Cut fast to the reveal. Keep the end card ≥ 2 s. Post natively as a Reel for reach, then it fills your grid's App-demo slot.
